These cabinet lines are listed in the Kitchen Cabinet Manufacturers Association Directory of Certified Cabinet Manufacturers. This manufacturer is authorized to apply KCMA Certification Seals to the factory assembled kitchen and bath cabinet lines listed above. Flat pack (unassembled) cabinets, if sold by this manufacturer, are not certified. This certificate may be updated at any time and will expire on the date listed above. This certificate may also be canceled for non-conformity with the requirements of the Certification Program or upon voluntary withdrawal from the program by the manufacturer.

Charles P. Arnold
Director of Certification

This certificate is current as of the issue date

Warranty Process

2 day off shelf – Will be for items that we have on our shelves such as hinges, guides, bumpers, tuk, caulk and literature.

- Will ship within 48 hours via UPS or truck available to ship in that time.

5 day – Will be for items such as drawer boxes, doors, moldings and accessories and small amount of cabinets (please contact your CS Representative).

- Will ship out in 5 days via UPS or truck available to ship in that time.
- Chargeable orders will incur a 35 % up-charge.
- Warranty orders due to factory issues will not have an up charge, but a reference number and description of issue must be provided at time order is placed.
- No custom paint or per drawings will be allowed.

8 day – Will be for items such as doors, accessories, moldings, drawer boxes and cabinets (5 per truck).

- Will ship out in 8 days via UPS or truck available to ship in that time.
- Chargeable orders will incur a 15% up-charge.
- Warranty orders due to factory issues will not have an up charge, but a reference number and description of issue must be provided at time order is placed.

Thank You,

Nations Cabinetry Team

Standard Depth & Height:

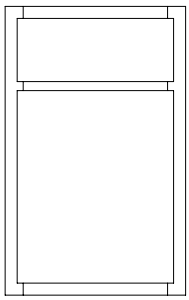
Walls = 12" Deep
Bases = 24" Deep X 34 1/2" High
Vanities = 21" Deep X 31 1/2" High

Tidwell Cabinetry

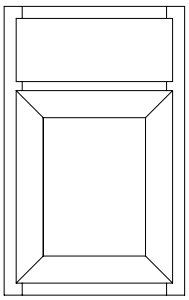
1. **Frames** = 3/4" thick, kiln-dried hardwood assembled under pressure with glue and screws, offers maximum strength
2. **End Panels** = 1/2" Substrate with maple wood grain laminate interior, matching laminate exterior
3. **Shelves** = 3/4" Substrate fully adjustable, half depth shelves with maple wood grain laminate
4. **Hanging Rails** = 1/2" Substrate
5. **Drawers =** Drawer sides and headers are 5/8" substrate. All drawers are pinned and rabbeted assembly. Visual drawer front is screwed to sub-front. Drawer bottoms 1/8" hardboard bottoms all finished in a maple wood grain laminate finish
6. **Drawer Guides =** 7/8" extension undermount drawer guides
7. **Bottoms** = 1/2" Substrate with maple wood grain laminate
8. **Toe Kicks =** 4 1/2" H x 3 1/8" D Substrate toe kicks, inset on all base, vanity bases and tall cabinets (toe kick unfinished)
9. **Hinges** = 6 - way adjustable, self-closing and concealed hinge
10. **1/8" Hardboard Back Panel =** Maple wood grain laminate, dadoed into ends, stapled and glued

In keeping with our continuous refinement policy, Tidwell Cabinetry reserves the right to change design, specifications, materials and prices without notice or obligation to make similar changes in products previously produced.

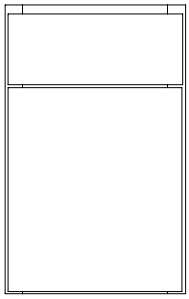
Overlay Information:



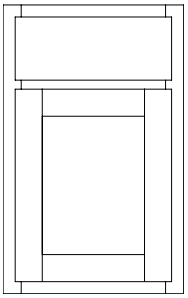
Standard Overlay
Standard Overlay door styles have a 3/4" reveal left and right and 15/16" top and bottom. 3/4" in between the doors and drawer fronts so no hardware pulls are required.



Mitered
A joint made by beveling each of two surfaces to be joined, usually at a 45° angle , to form a corner, usually a 90° angle.



Full Overlay
Full Overlay door styles offer a minimal gap between the door and drawer front, as well as cover the face frame producing a 3/16" reveal. Door and drawer hardware pulls are required.



Mortise & Tenon
Mortise & Tenon joint is made by inserting mortise on one piece into tenon in the other.

Wood Species Information:

Grain
Grain is the texture seen in cut wood. Door panel grain runs vertical, while drawer front grain runs horizontal.

Beech
Beech is a heavy, pale-colored medium to hard wood. It has a fine grain and medular rays, similar in appearance to maple or birch woods. Beech wood has a high shock resistance and takes stains well.

Cherry
Cherry is a fine textured, strong and fairly durable wood and is well known for becoming darker and richer with age. While fairly pale when freshly cut, the end result is a favored reddish brown with a golden luster hue.

Knotty Alder
Knotty Alder features a color range of light brown with reddish or peach hues. With soft, straight grain and even texture, it's characteristic also includes small and large split knots and open knots that vary in size, shape, and color.

Maple
Maple is a close grained wood that is generally straight, but may be wavy in some instances. Its color ranges from nearly white, to an off-white cream color, sometimes with a reddish or golden hue.

Oak
Oak features medium-to-large pores and a fairly coarse grain. Oak wood has a light to medium reddish-brown color that sometimes is streaked with mineral deposits and may vary from a close knot grain to sweeping arch pattern.

HDF
HDF consist of a hard wood or wood-type center that offers a smooth and uniform surface ideal for solid color finishing.. The advantage of using HDF vs. wood in the core again points to the moisture-resistant nature of fiberboard.

In keeping with our continuous refinement policy, Tidwell Cabinetry reserves the right to change design, specifications, materials and prices without notice or obligation to make similar changes in products previously produced.

Care, Cleaning and Misc:

Once your new kitchen has been installed and touched up, cleaning is the most important item that must be done. During normal installation, sawdust and other materials may be in the cabinet. To properly care for you cabinetry, remove dust from cabinets frequently with a soft lint-free cloth. You may slightly dampen your cloth with water or spray-type dust remover. If you spill anything on you cabinets, clean immediately. Use a clean cloth and mild soap if necessary. Wipe dry with clean, soft cloth.

To keep your cabinets beautiful, avoid spray-type polishes containing petroleum solvents. Wood cabinetry finishes may be cleaned and protected using any commercial cleaning polish. Use any polishes that are formulated without wax, petroleum solvents or silicone. The extended use of wax polishes can result in a wax film build-up. The use of silicone polishes can harm the cabinet finish. Do not use a dish cloth to wipe your cabinets exterior, as it may contain remnants of grease or detergent.

For everyday care, it is important to wipe up spills and water marks as they occur. Give special attention to areas around the sink and dishwasher.

Use a quality furniture polish found at your local super market.

Caring for the natural beauty of your Nations Cabinetry means proper maintenance. Here is how to prevent damages:

1. Excess water, when left unattended, can cause white spots and haziness to the finish and even damage the wood itself. Always remove excess liquid promptly, especially in moisture-prone areas, such as sink, range, dishwasher and baseboard areas.

2. Direct Sunlight can cause exposed areas to lighten or darken over time. When possible, keep cabinets out of direct sunlight or draw curtains during the sunniest part of the day. Be especially careful with cherry and maple cabinets.

3. Smoke and grease can form a hard film over time, dulling the finish. Routine cleaning can prevent long term damage.

CAUTION: The use of self-cleaning appliances can generate intense heat during the cleaning cycle. The integrity of the appliance seal or appliance door gaskets may be compromised with age, or improper installation, etc. We recommend the removal of the doors and pulling out the drawer on the cabinet adjacent to or directly above the appliance during a cleaning cycle.

SURFACE DAMAGE
As careful as you are, there may still be times when your new cabinets will get nicks and scratches. Your dealer has cabinet touch-up kits. It is a smart idea to purchase one of these kits to make small repairs as needed.

SCRATCHES & SCRAPES
Most cabinet scratches can be touched up using a matching touch-up marker that is available from your dealer.

NICKS OR GOUGES
A deeper damage requires using a soft fill stick. This will make the necessary repairs.

NOTE: Scratches across the grain are very difficult to repair and damages that are more substantial should be repaired by a professional finisher to prevent possible finish or surface damage.

In keeping with our continuous refinement policy, Tidwell Cabinetry reserves the right to change design, specifications, materials and prices without notice or obligation to make similar changes in products previously produced.

Care, Cleaning and Misc:

Wood is hygroscopic - meaning, when exposed to air, wood will lose or gain moisture until it is in equilibrium with the humidity and temperature of its environment. Tidwell Cabinetry closely monitors the moisture content of its product up until the point it is placed on the truck for delivery. Even then, protective coatings cannot prevent wood from gaining or losing moisture; they merely slow the process.

Most of the shrinkage and expansion problems with wood cabinetry involve job site or storage moisture conditions. These conditions cannot be controlled by cabinet manufacturers or in many instances by sub-contractors responsible for installing the cabinetry, unless interior humidity is maintained at proper levels.

For wood cabinetry professionals, it is important to inform users about the normal and expected behavior of wood in relation to moisture and the environment. Most wood cabinetry will contract during periods of low humidity, which is usually during the heating season, or expand during periods of high humidity. To help minimize these effects, it is important that users balance the environment of the building through temperature and humidity control.

Fortunately wood cabinetry performs at its best both during and after installation, when the relative humidity range of 30 to 50 percent and temperature range of 60 to 80 degrees, the range most people find comfortable.

Installation Do's and Dont's

It is recommended that you use a professional installer to install your cabinetry.

It is best to begin the installation with the wall cabinets, this way there won't be any base cabinets to work around.

Secure the cabinet to the studs using at least two screws per stud. Evenly space the screws between the top and bottom of the cabinet.

It is always best to verify there is at least one stud behind each cabinet in the middle of a run, and at least two studs behind each cabinet at the end of a run.

Floating cabinetry and floating shelves require additional support at time of installation.

Install only one cabinet at a time, always making sure it is level and plumb.

Wall cabinetry that is above standard depth should be installed between cabinets, or have extra support against wall.

Drill not only into wall but through attaching face frame to insure cabinets are secure. When adjacent cabinet is attached to previous cabinet, be sure to fully tighten the previous wall cabinet wall screws

Never use sheet rock/flat head screws. Only use #10 x 2 1/2" through cabinets into walls and recommended #8 x 2 1/2" phillips pan or trim head screws when joining cabinets.

In keeping with our continuous refinement policy, Tidwell Cabinetry reserves the right to change design, specifications, materials and prices without notice or obligation to make similar changes in products previously produced.

Tidwell CABINETRY

Custom Color Program

Tidwell CABINETRY

Acct #: _____

Date: _____

Thank you for choosing Tidwell Cabinetry custom color purchase. Our goal is to provide you with the best service and manage your custom color order efficiently and effectively. Please take a few moments to review the information below.

- Sample cost is $150.00 Net per Shaker sample door. If custom color is approved, cost of sample is credited to cabinetry order.
- Custom Color Program sample is done in Shaker door style.
- Color name and code must be currently offered from Sherwin Williams.
- Sample is good for 1 year from production.
- After 1 year from production date, a sample door or item must be sent in by the customer in order to check for color drift and reproduce the best replacement product.
- Once sample is approved, material will be produced based off order volume. Materials being produced follow the same process of sample materials with lead times depending on the ability to produce in plant, number of colors on order and volume of order.
- Order will not be processed until color sample is approved and approval signature is submitted to Tidwell Cabinetry.

By signing my name below, I certify that I have read the above information and am acknowledging that the color sample requested and received is correct. My signature also certifies my understanding of and agreement with the above policies.

Approval Signature: _____ Date: _____

Tidwell
CABINETRY

To better serve our customers need, Tidwell Cabinetry offers custom cabinetry known as a "Per Drawing".

Anytime a specialty cabinet is requested, we ask that you follow these few simple guidelines to help expedite the process, and ensure that it is done correctly and in a timely manner.

PER DRAWING GUIDELINES

PER DRAWING REQUEST: Complete per drawing request form and submit to your CS Rep. Please ensure that form is filled out properly, as any missing information will delay process.

QUOTE: Price is quoted and returned to you via e-mail/fax - Once this is done, your request is on hold until a preliminary drawing is requested.

PRELIMINARY DRAWING: Once requested, a preliminary drawing is done to confirm cabinet design, style, color and construction. If corrections are necessary, please mark and return drawing to your CS Rep

APPROVAL: To approve, please sign and date the preliminary drawing and return to above e-mail/fax. Please note, shop drawings will not be created until the preliminary drawing is signed and returned.

PRODUCTION: Once your approval is received, it is forwarded to your Customer Service Rep. A drawing number will be assigned and we can begin shop drawings and specifications for our system.

Since a "Per Drawing" cabinet is not run thru our standard manufacturing process, we require at least 2 business days from the time the original request is sent in before item can be placed into production.

Also, Per Drawings are manually built, they are NOT available in Rush.

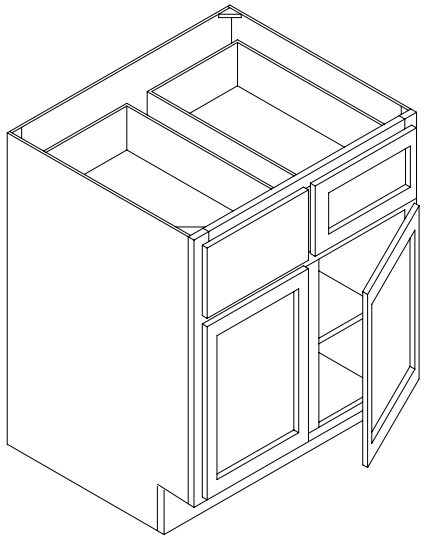
  - Shaker II
  - Sussex II FP
  - Sussex II RP
  - Midway II
  - Westin
- -SLB option changes the 5-piece drawer front to a slab front
- Size and outside profile remain the same



In keeping with our continuous refinement policy, Tidwell Cabinetry reserves the right to change design, specifications, materials and prices without notice or obligation to make similar changes in products previously produced.

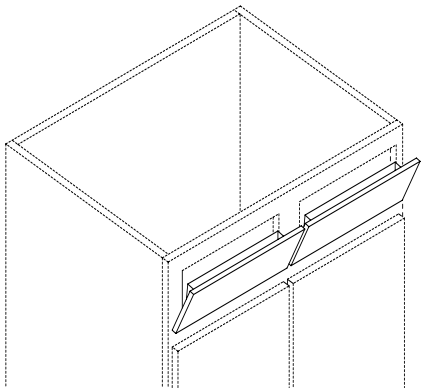
Shaded options are construction options that are available on selected cabinet

OPTIONS																										
AF	APC	BBD	BO	CFG	DPO	F4S	FAS	FC	FE	FF	FTK	IT	MD/ MD9	MI	NBS	NODR	NTK	PLYE	ROS	RPDF	RTB	SCD	SCH	SLB	TOT	XS	XX

Tilt Out Tray - TOT

Example = SB30-TOT

- Tilt out trays construction are plastic trays with a spring loaded hinge
- -TOT option is available in 18", 21", 24", 27", -BPD cabinet widths as a single tray
- -TOT option is available in 30" to 48" cabinet widths as a double tray

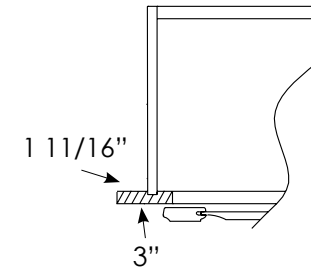


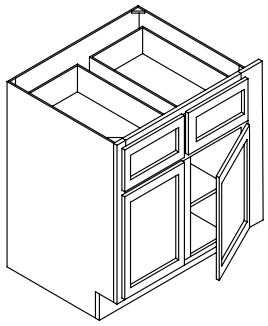
OPTIONS																										
AF	APC	BBD	BO	CFG	DPO	F4S	FAS	FC	FE	FF	FTK	IT	MD/ MD9	MI	NBS	NODR	NTK	PLYE	ROS	RPDF	RTB	SCD	SCH	SLB	TOT	XS	XX

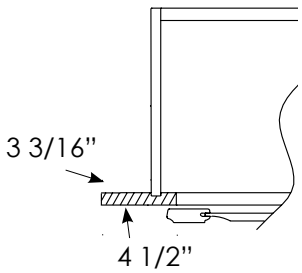
Extended Stiles - 1XS/3XS

Example = B30-1XSR / 3XSR (Right)
B30-1XSL / 3XSL (Left)
B30-1XSB / 3XSB (Both)

- Extended stile is not available in angled cabinet applications
- 1XS extended stile option will increase the overall face frame width 1 1/2" per side
- 3XS extended stile option will increase the overall face frame width 3" per side
- The peninsula side will "mirror" the cabinet face when extended stile is used in conjunction with peninsula option







In keeping with our continuous refinement policy, Tidwell Cabinetry reserves the right to change design, specifications, materials and prices without notice or obligation to make similar changes in products previously produced.

Shaded options are construction options that are available on selected cabinet

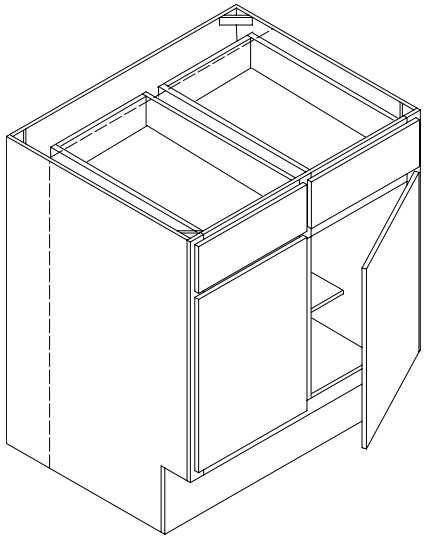
Special Depth - XX

EXAMPLE: W3330-xx (6" MIN - 30" MAX)
B30-xx (12" MIN - 36" MAX)
VSB30-xx (12" MIN - 30" MAX)
UC158424-xx (9" MIN - 36" MAX)



- Special depth available in 3" increments
- Will have working drawer for 12,15,18, 21 and 24 or greater.
- Cabinets with drawers with a special depth greater than 24" in depth will have partition blocking for operable drawers
- Any wall cabinet over 24" wide or 30" high with increased depth must have additional support at installation
- Some tall cabinets are offered at both 12", 21" and 24" depths. If 15" or 18" depth is desired, order as a reduced from the standard 21" depth
- Reduction of Depth comes at no charge

In keeping with our continuous refinement policy, Tidwell Cabinetry reserves the right to change design, specifications, materials and prices without notice or obligation to make similar changes in products previously produced.

Wall Cabinets

Wall Cabinet Construction Options			
AF	Aluminum Doors	MI	Matching Interior

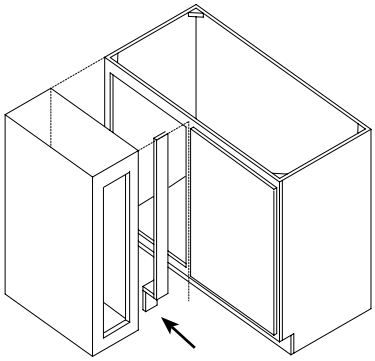
Base filler shown (not included)
*left shown



Base filler shown (not included)
*left shown

NOTES:

- See chart for actual cabinet width
- Must be ordered left or right
- A pull is required on standard and full overlay styles
- The RBB will need to be pulled away from the adjoining wall to clear adjoining cabinet, knobs and/or pulls used. The RBB will also need to be pulled if an appliance on the adjacent wall projects more than the 24" deep and is within 24" of the RBB. The "maximum" pull dimensions indicate the furthest distance the RBB can be pulled away from the adjacent wall - Pull information found in Introduction section
- **Filler not included, must order separately**

Tidwell CABINETRY

Tidwell Cabinetry products carry a Limited Lifetime Warranty against defective material and workmanship from date of delivery. Under this Limited Lifetime Warranty, a primary or secondary home does not include rental property. This Limited Lifetime Warranty does not apply to landlords, leasing companies or other commercial purchasers.

Wood is a product of nature, each tree varies in grain, pattern, density and color. Nature's impact determines the wood's distinctive character. Color match and grain patterns will vary because of material characteristics and are not considered defects by Tidwell Cabinetry. Exposure to sunlight, smoke and chemicals may cause some materials to fade or vary from their original color over time. Extreme temperatures can cause most solid wood items, like drawers and doors to warp and shrink.

Limits of Warranty:

It is recommended that you use a professional installer to install your cabinetry.

This warranty does not cover misuse, abuse, overloading, improper storage or installation of any kind.

Floating cabinetry, floating shelves or wall cabinetry that is above standard depth, should be installed between cabinets and/or require additional support at time of installation.

Wall cabinetry that is above standard depth should be installed between cabinets, or have extra support against wall.

During the warranty period, all defective materials will be replaced by Tidwell Cabinetry at no charge to the consumer. Warranty does not include any other products used in conjunction with the cabinets; including but not limited to: countertops, all appliances, backsplashes, plumbing, fixtures, and all forms of labor including cost of removal, transportation and installation.

All warranty is limited strictly to the item or the part of the item is purchased only.

Warranty does not include damages caused by any other product or natural causes of any form, such as a water damage or a flood. This also includes, all-natural causes such as earthquake, tornado, flood, etc that cause damages.

Any form of misuse, accident, alteration, negligent use is not covered by this warranty.

Cosmetic defects including but not limited to, scratches, dents, bad coloring, and all things that can be spotted will the eye easily are considered cosmetic and should be reported before installation. Scratches and dents can be caused during or after installation and are not covered by this warranty.
