CABINETRY

Warranty Process

2 day off shelf – Will be for items that we have on our shelves such as hinges, guides, bumpers, tuk, caulk and literature.

- Will ship within 48 hours via UPS or truck available to ship in that time.

5 day – Will be for items such as drawer boxes, doors, moldings and accessories and small amount of cabinets (please contact your CS Representative).

- Will ship out in 5 days via UPS or truck available to ship in that time.
- Chargeable orders will incur a 35 % up-charge.
- Warranty orders due to factory issues will not have an up charge, but a reference number and description of issue must be provided at time order is placed.
- No custom paint or per drawings will be allowed.

8 day – Will be for items such as doors, accessories, moldings, drawer boxes and cabinets (5 per truck).

- Will ship out in 8 days via UPS or truck available to ship in that time.
- Chargeable orders will incur a 15% up-charge.
- Warranty orders due to factory issues will not have an up charge, but a reference number and description of issue must be provided at time order is placed.

Thank You,

Nations Cabinetry Team

Closetree - Standard Construction
Closetree Cabinetry comes standard with MI/ME

- 1. End Panels** = 3/4" Substrate
- 2. Shelves** = 3/4" Substrate fully adjustable, full depth shelves
- 3. Stretchers** = 3/4" Plywood
- 4. Drawers** = -Solid Wood Dovetail Drawer box
- 5. Drawer Guides** = Soft Close, full extension undermount drawer guides
- 6. Tops and Bottoms** = 3/4" Substrate
- 7. Hinges** = 6 - way adjustable, soft close and concealed hinge
- 8. Backs** = 1/4" Substrate
- 9. Toe Kicks** = Come standard as Flush Toe Kick

Material Information:

Maple

Maple is a close grained wood that is generally straight, but may be wavy in some instances. Its color ranges from nearly white, to an off-white cream color, sometimes with a reddish or golden hue.

Oak

Oak features medium-to-large pores and a fairly coarse grain. Oak wood has a light to medium reddish-brown color that sometimes is streaked with mineral deposits and may vary from a close knot grain to sweeping arch pattern.

HDF

HDF consist of a hard wood or wood-type center that offers a smooth and uniform surface ideal for solid color finishing.. The advantage of using HDF vs. wood in the core again points to the moisture-resistant nature of fiberboard.

Acrylic

Impeccable surface consistency, scratch resistant high gloss surface and color richness that enhances depth and clarity.

Echo

Reconstituted real wood veneer provides endless opportunities to create the look of rare and common wood. This environmentally responsible alternative is an architectural veneer that is consistent in color and grain, time and time again.

Textured Melamine

Colorful textured melamine that has character with a designer-friendly focus. Authentic to the touch, with the benefits of value and durability, it's a smart surface that you can love.

Contact your CS Representative for formulations to buy your finishes at your local Sherwin Williams. These Sherwin Williams formulas can be used for painting other areas of the home. It is recommended that you purchase touch-up kits, pens and putty sticks so cabinetry can be touched up after installation.

Care, Cleaning and Misc:

Once your new cabinetry has been installed and touched up, cleaning is the most important item that must be done. During normal installation, sawdust and other materials may be in the cabinet. To properly care for your cabinetry, remove dust from cabinets frequently with a soft lint-free cloth. You may slightly dampen your cloth with water or spray-type dust remover. If you spill anything on your cabinets, clean immediately. Use a clean cloth and mild soap if necessary. Wipe dry with clean, soft cloth.

To keep your cabinets beautiful, avoid spray-type polishes containing petroleum solvents. Wood cabinetry finishes may be cleaned and protected using any commercial cleaning polish. Use any polishes that are formulated without wax, petroleum solvents or silicone. The extended use of wax polishes can result in a wax film build-up. The use of silicone polishes can harm the cabinet finish. Do not use a dish cloth to wipe your cabinets exterior, as it may contain remnants of grease or detergent.

For everyday care, it is important to wipe up spills and water marks as they occur. Give special attention to areas around the sink and dishwasher.

Use a quality furniture polish found at your local super market.

Caring for the natural beauty of your Nations Cabinetry means proper maintenance. Here is how to prevent damages:

1. Excess water, when left unattended, can cause white spots and haziness to the finish and even damage the wood itself. Always remove excess liquid promptly, especially in moisture-prone areas, such as sink, range, dishwasher and baseboard areas.
2. Direct Sunlight can cause exposed areas to lighten or darken over time. When possible, keep cabinets out of direct sunlight or draw curtains during the sunniest part of the day. Be especially careful with cherry and maple cabinets.
3. Smoke and grease can form a hard film over time, dulling the finish. Routine cleaning can prevent long term damage.

CAUTION: The use of self-cleaning appliances can generate intense heat during the cleaning cycle. The integrity of the appliance seal or appliance door gaskets may be compromised with age, or improper installation, etc. We recommend the removal of the doors and pulling out the drawer on the cabinet adjacent to or directly above the appliance during a cleaning cycle.

SURFACE DAMAGE

As careful as you are, there may still be times when your new cabinets will get nicks and scratches. Your dealer has cabinet touch-up kits. It is a smart idea to purchase one of these kits to make small repairs as needed.

SCRATCHES & SCRAPES

Most cabinet scratches can be touched up using a matching touch-up marker that is available from your dealer.

NICKS OR GOUGES

A deeper damage requires using a soft fill stick. This will make the necessary repairs.

NOTE: Scratches across the grain are very difficult to repair and damages that are more substantial should be repaired by a professional finisher to prevent possible finish or surface damage.

Care, Cleaning and Misc:

Wood is hygroscopic - meaning, when exposed to air, wood will lose or gain moisture until it is in equilibrium with the humidity and temperature of its environment. Tidwell Cabinetry closely monitors the moisture content of its product up until the point it is placed on the truck for delivery. Even then, protective coatings cannot prevent wood from gaining or losing moisture; they merely slow the process.

Most of the shrinkage and expansion problems with wood cabinetry involve job site or storage moisture conditions. These conditions cannot be controlled by cabinet manufacturers or in many instances by sub-contractors responsible for installing the cabinetry, unless interior humidity is maintained at proper levels.

For wood cabinetry professionals, it is important to inform users about the normal and expected behavior of wood in relation to moisture and the environment. Most wood cabinetry will contract during periods of low humidity, which is usually during the heating season, or expand during periods of high humidity. To help minimize these effects, it is important that users balance the environment of the building through temperature and humidity control.

Fortunately wood cabinetry performs at its best both during and after installation, when the relative humidity range of 30 to 50 percent and temperature range of 60 to 80 degrees, the range most people find comfortable.

Installation Do's and Dont's

It is recommended that you use a professional installer to install your cabinetry.

It is best to begin the installation with the wall cabinets, this way there won't be any base cabinets to work around.

Secure the cabinet to the studs using at least two screws per stud. Evenly space the screws between the top and bottom of the cabinet.

It is always best to verify there is at least one stud behind each cabinet in the middle of a run, and at least two studs behind each cabinet at the end of a run.

Floating cabinetry and floating shelves require additional support at time of installation.

Install only one cabinet at a time, always making sure it is level and plumb.

Wall cabinetry that is above standard depth should be installed between cabinets, or have extra support against wall.

Drill not only into wall but through attaching face frame to insure cabinets are secure. When adjacent cabinet is attached to previous cabinet, be sure to fully tighten the previous wall cabinet wall screws

Never use sheet rock/flat head screws. Only use #10 x 2 1/2" through cabinets into walls and recommended #8 x 2 1/2" phillips pan or trim head screws when joining cabinets.

Custom Color Program

Acct #: _____

Date: _____

Introduction

Thank you for choosing Closetree custom color purchase. Our goal is to provide you with the best service and manage your custom color order efficiently and effectively. Please take a few moments to review the information below.

- Sample cost is \$150.00 Net per sample door (Shaker 2). If custom color is approved, cost of sample is credited to cabinetry order.
- Custom Color Program sample is done in Shaker 2 door style.
- Color name and code must be currently offered from Sherwin Williams.
- Sample is good for 1 year from production.
- After 1 year from production date, a sample door or item must be sent in by the customer in order to check for color drift and reproduce the best replacement product.
- Once sample is approved, material will be produced based off order volume. Materials being produced follow the same process of sample materials with lead times depending on the ability to produce in plant, number of colors on order and volume of order.
- Order will not be processed until color sample is approved and approval signature is submitted to Closetree.

DreamCraft Cabinetry products carry a Limited Lifetime Warranty against defective material and workmanship from date of delivery. Under this Limited Lifetime Warranty, a primary or secondary home does not include rental property. This Limited Lifetime Warranty does not apply to landlords, leasing companies or other commercial purchasers.

Wood is a product of nature, each tree varies in grain, pattern, density and color. Nature's impact determines the wood's distinctive character. Color match and grain patterns will vary because of material characteristics and are not considered defects by DreamCraft Cabinetry. Exposure to sunlight, smoke and chemicals may cause some materials to fade or vary from their original color over time. Extreme temperatures can cause most solid wood items, like drawers and doors to warp and shrink.

Limits of Warranty:

It is recommended that you use a professional installer to install your cabinetry.

This warranty does not cover misuse, abuse, overloading, improper storage or installation of any kind.

Floating cabinetry, floating shelves or wall cabinetry that is above standard depth, should be installed between cabinets and/or require additional support at time of installation.

Wall cabinetry that is above standard depth should be installed between cabinets, or have extra support against wall.

During the warranty period, all defective materials will be replaced by DreamCraft Cabinetry at no charge to the consumer. Warranty does not include any other products used in conjunction with the cabinets; including but not limited to: countertops, all appliances, backsplashes, plumbing, fixtures, and all forms of labor including cost of removal, transportation and installation.

All warranty is limited strictly to the item or the part of the item is purchased only.

Warranty does not include damages caused by any other product or natural causes of any form, such as a water damage or a flood. This also includes, all-natural causes such as earthquake, tornado, flood, etc that cause damages.

Any form of misuse, accident, alteration, negligent use is not covered by this warranty.

Cosmetic defects including but not limited to, scratches, dents, bad coloring, and all things that can be spotted with the eye easily are considered cosmetic and should be reported before installation. Scratches and dents can be caused during or after installation and are not covered by this warranty.

Photography is for illustration purposes only. Actual colors may vary from those shown in photographs due to the printing process.
