

NATIONS

CABINETRY

Excellence as a standard!

Hettich is known for their perfect combination of intelligent technology, functionality and design – from drawer and runner systems and from hinges to folding and sliding door systems.

At Nations Cabinetry, our main goal is to achieve operational excellence and provide outstanding customer service. Recently, we sent out a memo in regards to upcoming changes to our hinge and guide selection. This change allows us the efficiency to have a common platform in production, and manufacture our cabinetry with care, skill, and ingenuity.

Hinges from Hettich are the heart of good doors: innovative, reliable and long lasting. They provide top quality as well as clever mounting and adjustment capabilities.

When it comes to runners for furniture drawers and domestic appli-

ances, product diversity from Hettich is unbeatable. For any loading capacity, the versatile Quadro runner provide the best solution for convenient, reliable drawer opening and closing for all classes of furniture and domestic appliances.

The Quadro runner guarantees lasting top performance and the last word in convenience for drawers. Elegantly concealed underneath the drawer bottom panel.

A few key features of the Quadro runner are as follows:

Silent System: An innovative dampening system for drawers that puts the breaks on for a slow motion stop.

High on durability: Steel balls never lose their perfectly round shape even when they're on the move and under pressure. Up to 180 precision balls, made of chrome-hard-

ened steel, guarantee the incredibly smooth sliding action with a loading capacity of 90 lbs.

Tracking stability: The special profiles and precision steel balls work in perfect harmony.

Self-Cleaning: The system is self-cleaning. Any dirt is simply swept aside by the steelballs as they travel along the track.
