

NATIONS CABINETRY

The Standard of Innovation

A cabinet is never just a cabinet; each one is a personal statement that reflects our vision and love for our craft.

July 1st 2019 - Q2

What's new:

Broan Ventilation -

Every kitchen needs ventilation. The fact is, the kitchen is a primary source of poor indoor air quality. Excessive moisture, smoke, and air-borne particulate quickly infiltrates every room in your home. Whether it's a focal point in your kitchen, or concealed in custom cabinetry, trust Broan—the leader in residential ventilation—to provide the optimal solution.

Color Chip Boxes -

Unlike a brochure or web-site, a color chip can offer a true representation of our various stains and paint. Included in this new offering is a sample of all our available wood species, with corresponding finishes, in a sturdy box which neatly keeps them together. Order your set today!

Lift Door Wall Cabinets -

Our LDW cabinets (Lift Door Wall) add needed functional storage as well as beauty to your kitchen design. Our Lift Door Wall cabinet doors lift up from the bottom, and swing up and out of the way. They stay wherever you stop the cabinet door, making them best for cabinets above the refrigerator, accent cabinets, and wall cabinets.

LDW cabinetry will be available in the following sizes:

- | | | | |
|---------|---------|---------|---------|
| LDW1818 | LDW2418 | LDW3018 | LDW3618 |
| LDW1824 | LDW2424 | LDW3024 | LDW3624 |

Continuous Improvement:

Trimmable Microwave Cabinet -

In 2019, the latest kitchen trends included hi tech gadgets and larger appliances. These newer trends allow for functionality and family time to be combined. In order to keep up with these trends, we will be introducing a new Trimmable Microwave Cabinet. Following the same specifications as our current TMWC, this particular model will add an additional 3" of bottom opening to accommodate larger microwaves.

Drawer Bottoms -

For more stability and stronger support, a 3" rail will, to the center of drawers from front to back on drawers longer than 24", will be part of our standard construction.

What's to Come:

To continue to be a top company, you have to know how to keep up with trends in your industry. Here's a quick sneak peek at some of the new products we are launching soon. Stay tuned for more updates!
