Overlay Information:

Standard Overlay

Standard Overlay door styles have a 3/4" reveal left and right and 15/16" top and bottom. 3/4" in between the doors and drawer fronts so no hardware pulls are required.

Mitered

A joint made by beveling each of two surfaces to be joined, usually at a 45° angle, to form a corner, usually a 90° angle.

Full Overlay

Full Overlay door styles offer a minimal gap between the door and drawer front, as well as cover the face frame producing a 3/16" reveal. Door and drawer hardware pulls are required.

Mortise & Tenon

Mortise & Tenon joint is made by inserting a mortise on one piece into a tenon in the other.

Wood Species Information:

Grain

Grain is the texture seen in cut wood. Door panel grain runs vertical, while drawer front grain runs horizontal.

Beech

Beech is a heavy, pale-colored medium to hard wood. It has a fine grain and medullary rays, similar in appearance to maple or birch woods. Beech wood has a high shock resistance and takes stains well.

Cherry

Cherry is a fine textured, strong and fairly durable wood and is well known for becoming darker and richer with age. While fairly pale when freshly cut, the end result is a favored reddish brown with a golden luster hue.

Knotty Alder

Knotty Alder features a color range of light brown with reddish or peach hues. With soft, straight grain and even texture, its characteristic also includes small and large split knots and open knots that vary in size, shape, and color.

Maple

Maple is a close grained wood that is generally straight, but may be wavy in some instances. Its color ranges from nearly white, to an off-white cream color, sometimes with a reddish or golden hue.

Oak

Oak features medium-to-large pores and a fairly coarse grain. Oak wood has a light to medium reddish-brown color that sometimes is streaked with mineral deposits and may vary from a close knot grain to sweeping arch pattern.

HDF

HDF consists of a hard wood or wood-type center that offers a smooth and uniform surface ideal for solid color finishing. The advantage of using HDF vs. wood in the core again points to the moisture-resistant nature of fiberboard.

Custom Color Program

Acct #: _____

Date: _____

Thank you for choosing BJ Tidwell Cabinetry custom color purchase. Our goal is to provide you with the best service and manage your custom color order efficiently and effectively. Please take a few moments to review the information below.

- Sample cost is \$150.00 Net per sample door. If custom color is approved, cost of sample is credited to cabinetry order.
- Color name and code must be currently offered from Sherwin Williams.
- Sample is good for 1 year from production.
- After 1 year from production date, a sample door or item must be sent in by the customer in order to check for color drift and reproduce the best replacement product.
- Once sample is approved, material will be produced based off order volume. Materials being produced follow the same process of sample materials with lead times depending on the ability to produce in plant, number of colors on order and volume of order.
- Order will not be processed until color sample is approved and approval signature is submitted to BJ Tidwell Cabinetry.

To better serve our customers need, BJ Tidwell Cabinetry offers custom cabinetry known as a "Per Drawing".

Anytime a specialty cabinet is requested, we ask that you follow these few simple guidelines to help expedite the process, and ensure that it is done correctly and in a timely manner.

PER DRAWING GUIDELINES

PER DRAWING REQUEST: Complete per drawing request form and submit to your CS Rep. Please ensure that form is filled out properly, as any missing information will delay process.

QUOTE: Price is quoted and returned to you via e-mail/fax - Once this is done, your request is on hold until a preliminary drawing is requested.

PRELIMINARY DRAWING: Once requested, a preliminary drawing is done to confirm cabinet design, style, color and construction. If corrections are necessary, please mark and return drawing to your CS Rep

APPROVAL: To approve, please sign and date the preliminary drawing and return to above e-mail/fax. Please note, shop drawings will not be created until the preliminary drawing is signed and returned.

PRODUCTION: Once your approval is received, it is forwarded to your Customer Service Rep. A drawing number will be assigned and we can begin shop drawings and specifications for our system.

Since a "Per Drawing" cabinet is not run thru our standard manufacturing process, we require at least 2 business days from the time the original request is sent in before item can be placed into production.

Also, Per Drawings are manually built, they are NOT available in Rush.

5-Year Limited Warranty: BJ Tidwell's Cabinetry are warranted for five (5) years from the date of purchase to original consumer purchasers. This to include cabinets, drawer box, drawer guides and hinges used in the manufacture of BJ Tidwell's Cabinetry shall be free from defects in material and workmanship under normal and regular use.

General Warranty Guidelines:

BJ Tidwell Cabinetry, will replace or provide the parts necessary to replace the defective products. During the warranty period, all defective materials will be replaced by BJ Tidwell Cabinetry at no charge to the consumer except for cost of removal, transportation and installation. This warranty is only applicable to products used in residential applications in the United States and is not transferable.

Please note, this warranty does not cover products that are misused, abused, mishandled, improperly installed, improperly stored, changed, modified or subject to extreme temperatures or extreme moisture levels, or normal wear and tear. This warranty is not valid for products used for any purpose other than the purpose for which they were originally intended.

Conditions are not considered quality defects and are not covered by this warranty:

Variations in color and grain pattern are a natural characteristic of wood. Color changes also may result from exposure to light, heat, smoke, household cleaners, and other elements and environmental conditions that are part of the aging process. These material variations and changes are not covered by this warranty.

Paint finishes are different from standard wood finishes. On all wood products, expansion and contraction are typical due to changes in climate conditions. Due to this normal movement, paint finishes may develop slight separation lines, finish breaks and seam lines. With use of selected hardwoods and veneers, some grain pattern and wood characteristics as well as seams and joints will remain visible through the paint finish. Over time, there may be a slight color shift, due to exposure to natural and artificial light.

BJ Tidwell Cabinetry products carry a five year warranty against defective material and workmanship from date of delivery. This warranty does not cover misuse, abuse, overloading, improper storage or installation. During the warranty period, all defective materials will be replaced by BJ Tidwell Cabinetry at no charge to the consumer except for cost of removal, transportation and installation.

In keeping with our continuous refinement policy, BJ Tidwell Cabinetry reserves the right to change design, specifications, materials and prices without notice or obligation to make similar changes in products previously produced.

Wood is a product of nature, each tree varies in grain, pattern, density and color. Nature's impact determines the wood's distinctive character. Color match and grain patterns will vary because of material characteristics and are not considered defects by BJ Tidwell Cabinetry. Exposure to sunlight, smoke and chemicals may cause some materials to fade or vary from their original color over time.

Photography is for illustration purposes only. Actual colors may vary from those shown in photographs due to the printing process.
