Material Information:

Beech

Beech is a heavy, pale-colored medium to hard wood. It has a fine grain and medular rays, similar in appearance to maple or birch woods. Beech wood has a high shock resistance and takes stains well.

Maple

Maple is a close grained wood that is generally straight, but may be wavy in some instances. Its color ranges from nearly white, to an off-white cream color, sometimes with a reddish or golden hue.

Oak

Oak features medium-to-large pores and a fairly coarse grain. Oak wood has a light to medium reddish-brown color that sometimes is streaked with mineral deposits and may vary from a close knot grain to sweeping arch pattern.

HDF

HDF consist of a hard wood or wood-type center that offers a smooth and uniform surface ideal for solid color finishing.. The advantage of using HDF vs. wood in the core again points to the moisture-resistant nature of fiberboard.

Acrylic

Impeccable surface consistency, scratch resistant high gloss surface and color richness that enhances depth and clarity.

Echo

Reconstituted real wood veneer provides endless opportunities to create the look of rare and common wood. This environmentally responsible alternative is an architectural veneer that is consistent in color and grain, time and time again.

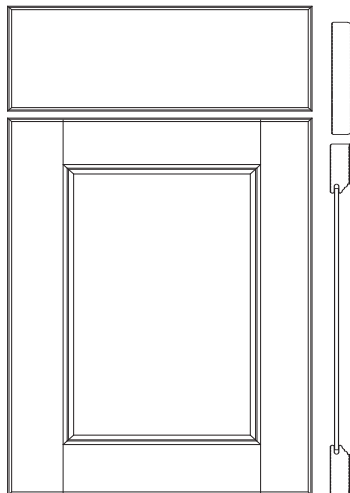

Textured Melamine

Colorful textured melamine that has character with a designer-friendly focus. Authentic to the touch, with the benefits of value and durability, it's a smart surface that you can love.

Custom Color Program

Acct #: _____

Date: _____

Thank you for choosing DreamCraft Euro Cabinetry custom color purchase. Our goal is to provide you with the best service and manage your custom color order efficiently and effectively. Please take a few moments to review the information below.

- Sample cost is \$150.00 Net per sample door. If custom color is approved, cost of sample is credited to cabinetry order.
- Color name and code must be currently offered from Sherwin Williams.
- Sample is good for 1 year from production.
- After 1 year from production date, a sample door or item must be sent in by the customer in order to check for color drift and reproduce the best replacement product.
- Once sample is approved, material will be produced based off order volume. Materials being produced follow the same process of sample materials with lead times depending on the ability to produce in plant, number of colors on order and volume of order.
- Order will not be processed until color sample is approved and approval signature is submitted to DreamCraft Euro Cabinetry.

NOTES:

- Must be ordered left or right
- The RBB will need to be pulled away from the adjoining wall to clear adjoining cabinet, knobs and/or pulls used. The RBB will also need to be pulled if an appliance on the adjacent wall projects more than the 24" deep and is within 24" of the RBB. The "maximum" pull dimensions indicate the furthest distance the RBB can be pulled away from the adjacent wall - Pull information found in Introduction section
- **Filler not included, must order separately**

NOTES:

- Must be ordered left or right
- The RBB will need to be pulled away from the adjoining wall to clear adjoining cabinet, knobs and/or pulls used. The RBB will also need to be pulled if an appliance on the adjacent wall projects more than the 24" deep and is within 24" of the RBB. The "maximum" pull dimensions indicate the furthest distance the RBB can be pulled away from the adjacent wall - Pull information found in Introduction section
- **Filler not included, must order separately**
